K	<p>متن زیر را بخوانید، سپس به سؤالات داده شده پاسخ دهید.</p> <p>Around the age of 26, Beethoven began to hear ringing in his ears. In 1800, aged 30, he wrote from Vienna to a childhood friend, saying that he had been suffering for some time: "For the last three years my hearing has grown steadily weaker." Beethoven tried to keep news of the problem secret from those closest to him. He feared he would lose his job if anyone realized.</p> <p>Once, Beethoven was walking with a fellow composer Ferdinand Ries when they saw a shepherd playing a pipe. Beethoven would have seen from Ries's face that there was beautiful music playing, but he couldn't hear it. It's said that Beethoven was never the same again after this incident, because he had confronted his deafness for the first time. Beethoven could apparently still hear some speech and music until 1812. But by the age of 44, he was almost totally deaf and unable to hear voices.</p> <p>But even after losing his hearing, Beethoven continued writing music. He had heard and played music for the first three decades of his life, so he knew how instruments and voices sounded and how they worked together. He could always imagine in his mind what his music would sound like. As his hearing got worse, he would sit at the piano, put a pencil in his mouth, touching the other end of it to the soundboard of the instrument, to feel the vibration of the note.</p> <p>30. According to the passage, why did Beethoven try to hide that he was hard of hearing from people around him?</p> <p>a) Because he worried that people might not like him. b) Because he was afraid that would decrease the quality of his music. c) Because he worried that no one would give him a job anymore. d) Because he was afraid that he might lose his friends.</p> <p>31. When was the first time Beethoven realized he could not hear the music of a pipe, based on the passage?</p> <p>a) When he was 30, in 1800. b) When he was walking with Ferdinand Ries. c) When he attended a concert in 1812. d) Sometime in the first three decades of his life.</p>
